Bologna Cappella Farnese Palazzo d'Accursio, Piazza Maggiore 6

Make mobility a reality

Imove Network launch conference

Beginning as a Lifelong Learning Programme funded project in January 2014, iMove now becomes an umbrella organisation open to new members. The vision and the aims of the network will be presented during a launch conference that will take place on 17-18 November 2016 in Bologna city center.

The conference will provide an opportunity to discuss the future and the challenges of mobility in Europe with key actors, experts and decision makers involved, from policy making to practitioner level.

During the conference there will be:

- a “Mobility Consortium Helpdesk” providing info and support about how to set up and manage a consortium, as well as information about the iMove Network and the opportunity to join,
- a “Dissemination Fair” where outputs and results of successful projects related to learning mobility can be shown and promoted to visitors and conference guests.

Simultaneous translation will be provided during the whole conference
