Dear partners,

I would like to thank you, even in behalf of my team, for taking part in the kickoff meeting of the iMove project last 19th / 20th February and in the conference of 21st.

I believe that mobility is vital to qualify VET systems. The Emilia-Romagna education system takes place in the classroom and in business, in close contact with the production process, but it also is very important having the opportunity to learn the dynamics of other realities, comparing with different cultures, ideas and innovation processes and dealing with the changes taking place in nowadays world.

I was glad to meet you and had the opportunity to discuss an issue that affects so many people in Europe. it was a pleasure to work with you and I wish our projects the best success.

Thanking you once again, for having contributed with great openness, professionalism and strong sense of affiliation to the success of this first meeting.

Your faithfully,

Prof. Patrizio Bianchi
